HERE'S HOW TO DETECT UNETHICAL CAMPAIGN PRACTICES.

Critically examine campaign mailing pieces, door hangers, emails, & handouts

- Does the material contain personal attacks, ridicule the candidate, contain statements that can't be verified, or employ scare tactics?
- Who sent you this material? Who's paying for it?
- Did it come from: the candidate, an unknown source, outside the county?
- Are you getting a large number of mailing pieces attacking a candidate?
- Are the sponsors clearly identified as individuals or just as a committee?
- Beware of phone calls that ask negative questions about a specific candidate.
- Check candidate information on the SMART Voter website www.smartvoter.org.

Above all: Watch out for last-minute hit pieces!

The following community leaders join the LEAGUE OF WOMEN VOTERS OF MARIN in supporting a return to civility in local elections. If you would like to join us in eliminating unethical campaign practices in local elections, please contact us.
